Objective:

-
- An aspiring web developer with a passion for learning, seeking an entry-level role to apply and expand my skills while collaborating on web development projects in a dynamic environment.

Education:

-
- B.E. in Electronics & Communication, Government Engineering College, Bharuch, 2012, Distinction (68.50%)
 - Diploma in Electronics & Communication, Dr. J.N. Mehta Govt. Poly, Amreli, 2009, Distinction (68.46%)
 - Secondary School Certificate (S.S.C), P.K. Desai Vidhyalaya, Kim, 2006, Distinction (89.57%)

Experience:

-
- | | |
|---|---|
| • Manager Engineering, HEARTH TEXTILE LLP, SURAT, December 2022 - Present | • Engineering Manager, ARVIND INDUSTRIES LIMITED, November 2017 - June 2019 |
| • Asst. Manager, ALOK INDUSTRIES LIMITED, June 2019 - December 2022 | • Utility Engineer, ALOK INDUSTRIES LIMITED, July 2013 - October 2017 |

Skills:

-
- React.js (Components, JSX, State, Props, Events, Conditional Rendering, Lists & Keys, Hooks)
 - HTML/CSS
 - JavaScript
 - Redux & Redux Toolkit (Actions, Reducers)
 - API Integration (fetch, RESTful APIs)
 - Form Handling (Controlled vs. Uncontrolled components, Form validation, Formik & Yup)
 - Authentication & Authorization (JWT, User authentication, Role-based access control)
 - Context API
 - React-Router-Dom
 - MongoDB, Express.js, Node.js (MERN Stack)
 - Asynchronous Operations

Projects:

1.MERN Stack Online Pizza Ordering App

click: [Live App Link](#) 

[Source Code](#) 

I have successfully developed a Pizza order application with key features that include user authentication for secure account management, a dynamic menu presentation with detailed descriptions and images, real-time pizza customization options, an interactive shopping cart for seamless order management, secure payment processing including cash-on-delivery, real-time order tracking for user convenience, an admin panel for efficient order and menu management, and robust security measures to protect user data through encryption and authentication. These accomplishments reflect my expertise in web development and my ability to create user-centered applications.

2.MERN Stack Online Note App with User Login

click: [Live App Link](#) 

[Source Code](#) 

I've developed a MERN stack demo project featuring secure user authentication via JWT and full CRUD (Create, Read, Update, Delete) operations for effective note creation and management, providing employers with a comprehensive showcase of my web development skills.
